SUMMARY

Fresher Frontend Developer with foundational knowledge of HTML, CSS, JavaScript, Bootstrap, Python, PHP, and MySQL. Experienced in building responsive web interfaces and browser-based applications with a focus on clean UI and usability. Familiar with Git, GitHub, APIs, GSAP, Docker, Vercel, and modern development environments. Currently focused on strengthening JavaScript and web development skills.

PROJECTS

PixelForge — Browser-Based Image Editor | *HTML5 • CSS3 • JavaScript • Canvas API*

- Built a lightweight browser-based image editor with responsive UI and real-time image filters.
- Implemented aesthetic presets, image processing, state handling, and browser-based image downloads.

GitHub: [Repository](#) | Live: [Demo](#)

FreelancerHub — Freelancer Management Dashboard | *HTML5 • CSS3 • JavaScript ES6+ • LocalStorage • Chart.js • Font Awesome*

- Built a responsive freelancer management dashboard for managing clients, projects, tasks, payments, and business analytics.
- Used vanilla JavaScript with LocalStorage for data persistence and Chart.js for visual analytics.
